Experience

MERN Stack Developer Intern

OriginKonnnect

October 2024 - Present

- Designing and building a responsive website using React.js, focusing on user-friendly interfaces and seamless navigation.
- Integrating backend APIs with front-end components to enable dynamic content and functionality.
- Deploying the website to production, ensuring cross-browser compatibility and optimized performance.
- Collaborating with the development team to debug, enhance, and test features, ensuring high-quality deliverables

Projects

E-Commerce website

Sept 2024 - Present

Technologies: React.js, Node.js, Express.js, MongoDB, JavaScript, HTML, CSS

- Created an e-commerce website to make online shopping easy and convenient.
- Built features like product listings, search, shopping cart, and checkout.
- Designed a mobile-friendly layout using Tailwind CSS.
- Developed backend with Node.js and Express.js for user login, product management, and orders.
- Used MongoDB to store product and user information.
- Implemented secure user login with tokens and encrypted passwords.)

Swiggy UI Clone

Aug 2024

Technologies: React.js, JavaScript, Tailwind CSS

- Developed a Swiggy-like food delivery app using React for the frontend
- Created features such as restaurant listings, food items display, and adding items to the cart.
- Designed a responsive and visually appealing UI using Tailwind CSS for a clean user experience.
- Used React hooks like useState and useEffect for managing the state and fetching data dynamically.
- Implemented smooth navigation between different pages like the homepage, restaurant details, and cart.

Certifications

Backend Development

Completed

Covered key backend technologies including JavaScript, Node.js, Express.js, and MongoDB

Physics Wallah

Web-Development BootCamp

Completed

Covered fundamental web design topics including HTML, CSS, and JavaScript.
